## WOMEN'S DAY CELEBRATIONS

We celebrate Women's Day on 8<sup>th</sup> March in our college every year. On this occasion, there were various events are conducted and performed by the students. Students too, shared their views on women empowerment and ongoing scenarios. A cultural show is performed which emphasized the role of women in the society. The Chief Guest guest of Dr.G.Prasanna has delivered a few guests of words about Women's Day programme. She spoke on empowerment of women and what opportunities have she is in different areas. She expressed now a day's men dominates women in all aspects like working area, housing harassment, so she suggested every woman want to know their strength, constitution rights and also maintain self-respect and individuality.

## A PROGRAM ON GENDER SENSITIVITY

RK College of Engineering is committed to gender equality. The College conducts a number of activities through various committees and associations to raise awareness of gender-related issues and raise awareness among the various stakeholders of the institution. Gender attitudes and norms, such as the roles and responsibilities of women and men, are learned from an early age. Children understand, experience, and use gender dynamics. Since 2008, ICRW has piloted and replicated the Gender Equality Movement in Schools (GEMS) program, a school-based intervention that promotes gender equality between girls and boys, taking a closer look social norms that define the roles of men and women and combat gender-based violence.

## SAFTY AND SECURITY OF WOMEN SAFETY

Every college campus places a high focus on the safety of women. For college administrators and students today, maintaining a secure and supportive campus environment is both a responsibility and a problem. Through a committed team of security specialists, the institute should offer a wide range of security amenities specifically for girls on its grounds. It is a typical occurrence for outstation students enrolling in various courses to leave their hometowns and cities for the first time ever. RK college of Engineering take king safety precautions, keeping a close eye on the students at all times during the night, performing room checks at least once every 15 minutes. cctv cameras should be strategically placed in every corner of the building.

## AN AWARENESS PROGRAM ON ANTI RAGGING

As we all have gathered today to celebrate this occasion, I would like to draw your attention towards an important issue rising these days in many organizations. I would like to speak on the topic- Ragging. Ragging means abusing, humiliating or harassing the new entrants in a high school, college or any other institutes and organizations. This practice shakes the confidence of new students entering the new organization.

Sometimes this practice is done very lightly and in a friendly way where it is used for introducing each other. This way it creates a friendly atmosphere for the new people. But if this practice is done harshly by embarrassing someone or making someone do something beyond his or her will, then it becomes a matter of punishment.
